

The Pterosaur Database

Pteraichnus species

Pterosaur tracks

North Horn Formation, Utah, USA.

Reported as bird tracks in 1989 by Parker and Balsley, these ichnites were reinterpreted as pterosaur tracks by Lockley and others in 1995.

Lockley, M. G. 1999. Pterosaur and bird tracks from a new Late Cretaceous locality in Utah. In Gillette, D. D. (ed.). Vertebrate Paleontology in Utah. Utah Geological Survey Miscellaneous Publication, 99-1:355–359.
